

Dr. RHEA PATEL DHOND

Asst. Professor Biochemistry, School of Chemical Science, Goa University

Ph.D. Graduate, Indian Institute of Technology Bombay, India

Visiting Research Scholar, Tufts University, Boston, MA, USA

+91 9764780833

Rhea.patel@unigoa.ac.in
rheapatel2011@gmail.com/

AF-5, AKAR GARDENS, AQUEM,
MARGAO, GOA 403601

- Ph.D. graduate (Best thesis – IEEE APSCON) from IIT Bombay
- Visiting Research Scholar (April-Oct 2023) at Tufts University, Boston
- Double Gold Medalist for graduation in Biotechnology and post-graduation in Biochemistry.
- INSPIRE Fellowship awardee (Department of Science & Technology, Government of India)

SKILLS

Problem-Solving
Project Management Tools
Strong Communication
Writing proficiency

EXPERIENCE

1. BIOLOGY FACULTY FOR NEET ASPIRANTS
Estellar Academy, Goa (2023-2024)
2. VISITING RESEARCH SCHOLAR
Tufts University, Boston, MA (2023)
3. PH. D. RESEARCH SCHOLAR
Indian Institute of Technology, Bombay, India (2019- 2023)
4. RESEARCH SCHOLAR
Indian Institute of Technology, Bombay, India (2018 – 2019)

INTERESTS

Biosensors
Lab-on-chip devices
Electrochemical impedance spectroscopy
Microfluidics
Diagnostic sensors
Nanotechnology

ACCOMPLISHMENTS

EDUCATION

BACHELOR OF SCIENCE - BIOTECHNOLOGY

2013-2016

Gold Medalist at Goa University

MASTER OF SCIENCE - BIOCHEMISTRY 2016-2018

Gold Medalist at Goa University

PH. D. RESEARCH SCHOLAR

2019- 2023

CPI 9.5/10, Indian Institute of Technology, Bombay, India

- Honors Program in "Chemical Analysis and Quality Management" "withA grade"
- Cambridge Business English Certificate – Preliminary Level Student of the Biotechnology Department, 2016
- Subject prize Winner in Biotechnology, 2016
- 8.0 Band Score in IELTSexamination, 2019
- Oral presentation at Velammal Healthcare Innovation Awards2019, Madurai, India
- Winner of Eureka: Asia's largest B-Model competition held by E- Cell IIT Bombay accredited independently by CNN and ThomsonReuteR
- Awarded the "COVID Warrior" at South Goa District Hospital, Goa for volunteering for COVID RT-PCR tes

RESEARCH EXPERIENCE

- VISITING RESEARCH SCHOLAR (MARCH 2023 – SEPTEMBER 2023), TUFTS UNIVERSITY, BOSTON
 - Development of screening platforms for electrogenic bacteria
 - Chronoamperometry measurements for screening bacteria with current generation abilities
 - Microbial fuel cells with electrogenic bacteria and performance comparison
 - Fabrication of flexible substrates for electrochemical sensing applications
- PH.D. RESEARCH (2019 - 2023), IIT BOMBAY
 - Development of biosensor for agricultural pathogen detection
 - Biosensor development and prototyping
 - Microfabrication of gold-interdigitated electrodes
 - Electrochemical impedance spectroscopy
 - Potentiostat/electrochemical analyzer
 - Well verse with biomolecular techniques: Polymerase chain reaction, DNA genomics, electrophoresis
 - Biomaterial synthesis and characterization – ATR-FTIR analysis, MS, contact angle measurements, dynamic light scattering, scanning electron microscopy, UV-Visible spectroscopy
 - Completed coursework with practical in Bio-nanotechnology, Microfluidics, Drug delivery, Biomaterial regeneration and characterization, Immunology, Biosensor and nanotechnology with a CPI of 9.4/10.
- RESEARCH SCHOLAR (2018 -2019), IIT BOMBAY
 - Development of gas sensors for agricultural applications
 - Development of a Microelectromechanical system (MEMS) based, cleanroom free fabricated, piezoresistive hydrogen sulfide (H_2S) gas sensor using a flexible polyethylene terephthalate (PET) substrate.
- BACHELOR OF SCIENCE, Research (2013 -2016)
 - Green synthesis of nanoparticles and its potential applications
 - Green synthesis of silver nanoparticles from bacteria, fungi and plants
 - Nanomaterial characterization and biofunctionalization
