Feedback from some of the participants.
- *It's was knowledgeable. I got to know hacks.*
- *It was a nice workshop looking forward for the next.*
- *The workshop was very helpful.*
- *I had prior knowledge about the topic for this session. I knew most of the things except some langauge tools to help my vocabulary. However, I liked the session.*
- *It was a well-presented workshop , the network issues was a spoilsport but we managed to get the hands on training as well*
- *It was an informative and very helpful workshop, especially for us dissertation students. Very interactive one, didn't even felt bored. I just wish the network in that room, would have been better, so that we could have practice at that time.*
- *Workshop was excellent! Functional internet for both, the resource person as well as the participants, ensures the success of class activities.*
- *I would like to suggest that a similar workshop must be conducted even at the college level. So final year undergraduate students should apply these AI tools in their research project and avoid plagiarism.*
