Report on Basic Tech Tools for Research in Languages and Literature

1. Title of the Event/Activity/program	Basic Tech Tools for Research in Languages and Literature
2. Date and Time	27/08/2024, 2 to 4pm and 1 hour Asynchronous work
3. Mode of conduct (Physical/Online)	Physical (2 hours) and Online (1 hour)
4. School/ Directorate/ Section	Shenoi Goembab School of Languages and Literature, Discipline of French and Francophone Studies
5. Collaborating Agency/School/Directorate	NA
6. Detail of the Resource Person (Brief biodata)	Dr. Natasha Maria Gomes
7. Number of Faculty attended/participated	6 faculty
8. Number of Student attended / participated	18
9. No. of external students/faculty/other participants	NA
10. The objectives of the Program/activity/event	In this workshop, participants will get an overview of fundamental tech tools commonly used in language research. Explore how these tools can streamline workflows, improve research quality, and facilitate collaboration among researchers. The objective is to empower participants to incorporate tech tools into their research practices for greater efficiency and effectiveness.
11. Description of the Program/activity/event	By the end of the workshop, participants will be able to • identify and describe common Tech tools

	including AI tools and techniques used in research in general and language research in particular • Use basic Tech tools while conducting research • Identify strategies for critical evaluation of AI-generated outputs
12. Benefit/Key outcomes of the Program/activity/event	The purpose of this workshop is to equip participants with the required knowledge and skills required to effectively and ethically use Basic Tech tools for research in languages and literature.

Feedback from some of the participants.

What aspects of the session did you find most beneficial?

Got an opportunity to know about the new tools like elicit, litmaps, and scispace.

Whole Part

I came to know about the several AIs which could help me with 3rd year project.

Discovering the tools available for referencing

I found the session on Eliciit and other research-related tools extremely beneficial. The hands on demonstration provided a clear understanding of how these tools can enhance the research process, especially in efficiently gathering and analyzing data.

Discovering new tools and their usage.

I was exposed to Generative AI tools I didn't know existed, especially the use of Elicit for finding Academic Papers as well as AI tools for Literature Review.

The insights shared about the various tech-tools, especially Elicit or Litmaps that aid in narrowing down specific valuable research papers.
