Report on

**20th International Conference on Natural Language Processing (ICON) 2023 -
(14th to 17th December 2023)**

1. Title of the Event/Activity/program	20th International Conference on Natural Language Processing (ICON-2023)
2. Date and Time	14th to 17th December 2023
3. Mode of conduct	Physical
4. School	Goa Business School, Goa University
5. Collaborating Agency/School/Directorate	Natural Language Processing Association of India (NLPAI) (https://nlpai.in/) - H.Q. Hyderabad, India
6. Detail of the Resource Person	<ol style="list-style-type: none">Prof. Ruslan Mitkov, Lancaster University (UK) delivered a keynote speech on <i>'Are rule-based approaches a thing of the past? The case of anaphora resolution'</i>Mr. Josef Van Genabith, German Research Center for Artificial Intelligence delivered a keynote speech on <i>'Who is Afraid of Spurious Correlation in Classification?'</i>Prof. Rajeev Sangal, Professor-Emeritus, IIT Hyderabad, India delivered a keynote speech on <i>'Challenges in Speech to Speech Language Translation: Prosody and Discourse'</i> <p>Organising Committee</p> <ul style="list-style-type: none">• <i>Patron</i> Harilal B. Menon, Vice Chancellor, Goa University• <i>Advisory Committee Chair</i><ul style="list-style-type: none">◦ Rajeev Sangal, IIT Hyderabad• <i>General Chair</i><ul style="list-style-type: none">◦ Sivaji Bandyopadhyay, Jadavpur University• <i>Program Chairs</i>

- Jyoti D. Pawar, Goa University

7. Number of Faculty attended/participated	50+ Faculty members from Goa University and other colleges of Goa and outside of Goa.
8. Number of Student attended / participated	250+ Students and Research Scholars 05+ Volunteers
9. No. of external students/faculty/other participants	15 personnels from Industry
10. The objectives of the Program/activity/event	<ol style="list-style-type: none"> 1. To catalyze innovation, drive advance technology development & equip a tech-skilled workforce for tech and non tech Industries to promote technology interventions while increasing awareness of the current Industrial landscape in the state. 2. To encourage right career development and accelerate the essential skill development for employability and ignite the spirit of entrepreneurship to make them future ready.
11. Description of the Program/activity/event	The 20th International Conference on Natural Language Processing (ICON-2023) was organized at Goa University, Goa, India in collaboration with the Natural Language Processing Association of India (NLP AI) from December 14-17, 2023. The ICON Conference series is an annual conference for promoting interaction among students, faculty members, and researchers in the fields of Natural Language Processing (NLP), Artificial Intelligence (AI), and Computational linguistics (CL) in India and abroad. The main conference was held on December 15-16, 2023. This was preceded by one day of pre-conference tutorial and workshops on December 14, 2023, and one day of post-conference shared tasks, tools and demos on December 17, 2023.

This conference had participants from across the globe having their research interests in the fields of NLP, AI, ML, etc. This international conference has benefitted students, researchers, faculty, and language and linguistic professionals (especially locals and Konkani language enthusiasts in Goa) which has gained knowledge and insights into the research areas and latest trends in the areas of AI, ML, and NLP.

Prof Jyoti Pawar is the Program Chair of ICON 2023. The local organizing committee is appointed under the chairmanship of Ramrao Wagh composed of faculty members from GBS, other Schools of Goa University.

In this 20th ICON we received high quality paper submissions in all fields of NLP. The submissions were from across the globe. The conference proceedings embody papers selected for presentation in technical sessions of ICON 2023.

Out of 174 submissions, a total of 93 papers were accepted. Amongst these, 30 were long papers and 63 were short papers, representing diverse research findings and covering a broad spectrum of topics within NLP and linguistics. In addition, the conference featured other events: 9 Tutorials, 1 Workshop, 1 Demo and 2 Shared Tasks. There were some submissions from 8 countries covering 4 language families. The papers were from the scheduled languages of India as well as from the non-scheduled languages of India such as Tulu and Khasi and from the tribal language Malasar.

Prof. Ruslan Mitkov, Lancaster University (UK), Prof. Josef Van Genabith, German Research Centre for Artificial Intelligence and Prof. Rajeev Sangal IIIT Hyderabad were keynote speakers and for their keynote lectures at ICON2023.

There were research papers in the research topics spanning in the areas viz., Syntax and Semantics, Computational Psycholinguistics, QA, Information Extraction, Information Retrieval and Text Mining, Sentiment Analysis and Emotion Recognition, Language Resources and Evaluation, Speech, Multimodality, Machine Translation, NLP Applications, Machine Learning in NLP, Natural Language Text Generation, Doctoral Consortium Chairs, Shared Task/Tool Contest Chairs and the Workshop/Tutorial Chairs for their contribution in making this edition of ICON 2023 a success.

This conference was organized with the help of faculty members of GBS and other schools of Goa University as well as student volunteers who assisted us in various

	<p>activities of the conference. We are grateful to all the researchers, academicians, industry liaisons, and all the participants of ICON-2023 who responded to our call for papers, industry connect outreach, collocated shared tasks and workshop proposals, without whom the conference would not have been a success. We thank the reviewers who agreed to review the papers and enabled the quality review ecosystem. We also thank the session chairs for dedicating their valuable time to ICON-2023.</p> <p>Sponsors for ICON 2023 were: Gold Sponsor: Augnito India Pvt. Ltd., Silver Sponsor: iHub-Data, IIIT Hyderabad, Bronze Sponsor: Adobe Research, TCS Research, Rikaian Technology Pvt. Ltd., and Directorate of Higher Education, Govt. of Goa</p>
<p>12. Benefit/Key outcomes of the Program/activity/event</p>	<p>With successfully organization of ICON 2023, Natural Language Processing(NLP) has seen yet another milestone with the advent of generative AI and various other newer methods, techniques and approaches, such as Pretrained Language Models, Transformer-Based designs, Multilingual NLP, Zero-Shot and Few-Shot Learning, Explainability and Interpretability, NLP for Low-Resource Languages and Applications of NLP in Biomedicine and Clinical Settings. These advancements have led to impressive improvements in various NLP tasks, such as Machine Translation, Speech Technology, Language Modeling, Sentiment/Emotion Analysis, Conversational Analysis and Question Answering (QA) to mention a few.</p> <p>Another important trend that was explored during ICON 2023 was representation learning methodologies and attention mechanisms, which have greatly enhanced natural language understanding in NLP. This has made it possible for the development of systems which are able to read and analyze natural language with astounding precision, revolutionizing the field of Speech and Text understanding. Rapid advancements in Artificial Intelligence (AI) and the explosion of generative AI - which can create text, photos and videos in response to open-ended prompts - has spurred a sudden surge of application. This shall possibly result in industry-academia partnership to nurture the research ecosystem through funding, transfer of technology, development of products and promoting business through Start-ups.</p>
