Bio Data

Dr. Subodh Kerkar is a prominent Indian artist, sculptor, and founder of the Museum of Goa (MOG), a contemporary art space in Goa, India. Born in 1959 in Goa, Dr. Kerkar initially trained as a medical doctor, but his passion for art led him to transition from medicine to pursue a career in the visual arts.

Dr. Kerkar is known for his large-scale installations, sculptures, and mixed-media works that often explore themes related to the ocean, history, and the cultural identity of Goa. His art is deeply influenced by the natural environment and the socio-political history of the region, particularly the impact of Portuguese colonization. He often uses materials like sea shells, sand, and other elements from the coastal environment, blending them with contemporary artistic practices.

In 2015, Dr. Kerkar founded the Museum of Goa, which has since become a significant cultural landmark in the state. The museum is dedicated to promoting contemporary art and providing a platform for artists from India and around the

world to exhibit their work. It also serves as a space for dialogue, education, and engagement with the arts.

Dr. Kerkar's work has been exhibited internationally, and he has participated in various art festivals and biennales. His contributions to the field of contemporary art have earned him recognition as one of Goa's most influential cultural figures. Through his art and the Museum of Goa, Dr. Kerkar continues to inspire and engage with the global art community.
