Discipline of French and Francophone Studies

Report on "Poster Making" – A participative learning activity

As a part of the optional course "French Language Level 1", a two-hour participative learning activity was conducted wherein the students had to create a poster with the French words and images. The session was conducted with the MA students who have opted for the French Language Level 1 in the discipline of French and Francophone Studies. The activity was conducted by Ms. Shourya Dalvi on 19th July 2024. A total of 10 students participated in the activity.

The activity required the students to come up with words – nouns, expressions in French which they have learnt in the first lesson in class or find new words that they would prefer. They were asked to bring printed images or draw images and collaboratively make a poster with the words they have listed. The students were divided in two groups. The objective of this activity was to encourage students to revise the words they have already learnt and to find out new words thus enriching their vocabulary. The activity not only helped the students to build their lexicon but also served as a team building and fun activity for active participation of the students wherein they explored or revisited their talents.
