Report on "Presentez la capitale en images" – A participative learning activity

As a part of the optional course "French Language Level 1", a participative learning activity was conducted wherein the students were required to present the capital of Goa through images. The first lesson of the textbook used for the course "Version Originale 1" contains an activity which requires the students to choose 4 images to present the capital of their country.

In order to make the activity practical and accessible and to help the students be more creative, the students were asked to click one picture that according to them represents the capital of Goa and find an adjective in French that describes the picture, as a caption. The session was conducted with the MA students who have opted for the French Language Level 1 in the discipline of French and Francophone Studies. The activity was conducted by Ms. Shourya Dalvi from the period of 10th July 2024 to 15th August 2024 – the time allotted to submit images along with the caption. A total of 10 students participated in the activity.

The objective of this activity was to encourage students to learn various nouns and adjectives that are used to describe a place. The vocabulary learnt during this activity would eventually enrich their understanding of lesson 4 which is centred around description of a city and public spaces.
