There were 8 groups with approximately 10 participants each. 4 videos were screened and two teams were assigned the task of discussing at least one video by highlighting the issues of concerns and suggest strategies to address the same. Each team came forward and presented the points discussed in the group and all participants were given opportunity to also voice out their perspectives on the video. The second session was conducted by Dr. Sulochana Pednekar by inviting two participants from each group and was assigned an identity.
